Dear Samabhavana,

I hope this email finds you well. I am writing to express our gratitude for your proposal regarding the establishment of a mini science centre in two different schools as part of our corporate social responsibility (CSR) activities.

After careful consideration and assessment, we are pleased to inform you that we wholeheartedly accept your proposal and are eager to proceed with this initiative. We believe that fostering an interest in science among children is crucial for their holistic development and future success. Your proposed project aligns perfectly with our CSR goals and values, and we are excited about the positive impact it will have on the students and the community at large.

To ensure the success of this venture, we are committed to providing the necessary resources and support as outlined in your proposal. Additionally, we are open to discussing any further details or requirements to facilitate the smooth implementation of the project.

We would like to extend our appreciation to your team for their dedication and hard work in developing this proposal. Together, we can make a meaningful difference in the lives of these children and contribute to their educational journey.

Please find below entity names and CSR amount details and CSR utilization certificate break up:

Entity names	Total project cost	CSR amount spend for current FY 23-24	CSR amount spend pertaining to next FY 24-25
Vassudevo	5,73,297	250 4,38,	1,35,047
VSK	5,73,297	514 3,58,	2,14,783

Thank you once again for this opportunity to make a positive impact in our community. We are excited about the journey ahead and the difference we can make together.

Regards

Payal Sharaf

Subject: STEM Learning - Mini Science Centre (MSC) Proposal

Respected Payal Ma'am,

Greetings from STEM Learning!

STEM Learning is India's leading CSR implementing partner, armed with a mission to change the way education is being taught in rural and urban schools.

So far through our CSR programs, we have impacted the lives of millions + students and more than 12500 teachers in 2500+ schools. In the last 13 years, we have reached 27 states.

Our CSR programs are sustainable and can reform science and mathematics education systems, while igniting scientific temper among students.

Mini Science Centre (MSC) is a prerequisite for teaching Science and Mathematics to school children in a simpler way. It is innovative and interactive with a hands-on approach to facilitate the learning process.

Seeking your positive response in regards to implementation of this project for a noble cause.
